SUMMARY

First designer at Lightstorm - built the Polarin Network-as-a-Service (NaaS) platform from the ground up and earned two promotions into full product ownership over four years. Now an AI-native Product Manager (PM) shipping the entire loop myself: discovery, Product Requirements Documents (PRDs), prototypes, and deployment - using Claude, Figma, and Vercel to move faster than conventional teams.

KEY ACHIEVEMENTS

3×

Self-service adoption

40%

Dev handoff reduction

~50%

Vendor dependency cut

0→1

Products shipped

EXPERIENCE

- Lightstorm**

Promoted 2× · Nov 2022 – Present

Gurugram, India

Associate Product Manager

Jan 2026 – Present

 - Transitioned fully into product management - own the developer and customer portal roadmap end to end
 - Shape roadmap priorities from support data, usage analytics, and customer interviews; drive sprint and release planning
 - Stay hands-on with experience and design craft - applying core skills to keep quality high while leading priorities
 - Deploy frontend changes directly via Claude and Figma in Visual Studio Code - cut outsourced vendor dependency ~50%
- Senior Executive UI/UX Designer

Jan 2025 – Dec 2025

 - Evaluated product decisions from both customer experience and business impact perspectives, balancing usability, technical feasibility, and commercial objectives.
 - Participated in roadmap planning, release discussions, and stakeholder reviews to align product initiatives with business goals.
 - Converted customer feedback, support insights, and operational challenges into structured requirements, user flows, and implementation-ready solutions.
 - Continued leading UX for the platform while driving cross-functional discussions across product, engineering, operations, and leadership.
- Executive UI/UX Designer

Oct 2022 – Dec 2024

 - Set the foundation for each customer portal module from 0 to 1 - structure, core flows, and screens built from the ground up
 - Established the Polarin design system - tokens, components, and patterns - that every product surface still runs on
- Peepal Design**

Bangalore, India

UI/UX Designer

Sep 2021 – Oct 2022

 - Redesigned 3 enterprise B2B products - lifted task completion 28%, cut drop-off 35% across Portico, G+D, and TP Vision
